

LET IT RIDE GAMING GUIDE

Let It Ride Stud Poker offers the opportunity to control two of three bets wagered on an exciting new Poker game. Let It Ride is enjoyable and easy to learn. It is based on the Five Card Stud Poker game. Players do not play against the dealer or any other player. Players win if their five card hand is a pair of 10s or better.

Each player will place three equal bets in the spaces indicated "1", "2" and "\$."

Players may also make an optional Three Card Bonus wager that wins if their first three cards are a pair or better. All bets must be placed prior to the dealer announcing "no more bets."

Each player receives three cards face down. Players try to get a good Poker hand by using three cards from their hand and two community cards which are exposed one at a time by the dealer. Players are NOT playing against the dealer or other players.

Each player is required to keep their three cards in full view of the dealer at all times.

Winning hands are paid according to the payout schedule.

After players look at their first three cards, they may ask for their first bet back or may "Let It Ride."

One of the community cards is then turned up. Players may then ask for their second bet back or "Let It Ride." After players have made a final decision regarding bet number two, their cards will be placed face down on the designated area of the layout and they may not touch the cards again.

The dealer then turns up the second community card and then each player's three cards. The dealer will then pay each hand based on the payout schedule.

Regardless of the decision made concerning the player's first or second bet, they may not take back the third bet.

Players may not show their hands to other players.

There is a \$50,000 maximum payout per player, per hand.
