Race #6

I ZOOM

This horse is very a very "QUIRKY" mare, she has to have everything her way, and she is also an every other type of Mare, meaning she will run a good race, then regress the following. She is switched to the "ON" position this evening, and I don't think that anyone here can out step her. She also gets the rail that she loves and must have in order to win. She is 22/29 "In the Money" at PID and 4/6 at the distance.

SPOT PLAY

Race # 3

(2) MARGIE IS LIVID

This filly drops way down into claiming ranks here. She has run in some strong company, including Amy Farah Fowler in the Colleen Stakes. This class relief is most likely what she needs to get back to the Winner's Circle. She will be the pacesetter, but will need to continue on with her speed in order to win this race, and hold off late chargers.
