

# FACE UP PAI GOW POKER™ GAMING GUIDE

Face Up Pai Gow Poker™ features head-to-head play against the dealer and offers the optional Fortune Bonus, Ace-High, and Progressive wagers. As in standard Pai Gow, each player and dealer receives seven-cards, but in Face Up Pai Gow Poker, the dealer's cards are dealt face-up.

The player will receive seven cards to start the game. From those seven cards, the player will make their best five-card poker hand and their second best two-card hand. In order to win, the player must beat the dealer on both the five-card and the two-card hand. If both hands do not beat the dealer, the player loses. If only one of the hands beats the dealer, the player pushes.

Face Up Pai Gow Poker is a commission-free game. You do not pay a 5% commission when you beat the dealer; however, when the dealer plays Ace-High, you automatically push.

In Face Up Pai Gow, the dealer will set their hand first before any players look at their cards. If you have only played the standard Pai Gow wager, you have the option to surrender your hand after the dealer's hand has been set. This intention must be announced before your hand is exposed.

## GETTING STARTED

To begin each round, make a standard Pai Gow wager. You may also make the Fortune Bonus, Ace-High, and Progressive wagers.

## FORTUNE BONUS

The Fortune Bonus bet wins if you have a three of-a-kind or better in your total seven cards. If you wager at least \$5 on the Fortune Bonus, the dealer will place an "envy" button next to your bet. If at least one player receives a hand that qualifies for Envy Bonus payouts, all players with envy buttons will win. You can win multiple Envy Bonuses in a round, but you CANNOT win an Envy Bonus for your own hand or the dealer's hand.
