### Race #6

#### (7) GOLDEN EMPEROR

Conditioner Mike Rogers found his charger in an absolute speed dual last time out, and that suicidal pasce proved to be a fatal blow to this hard knocking gelding. He won't find that kind of speed in against him today and should be able to shake loose on the front and get home as the winner. The decrease in distance only helps his chances. In addition, he gets ultra-hot jockey Willie Martinez as his pilot today. Looking for at least 2/1 on the board.

## SPOT PLAY OF THE DAY

### Race # 3

#### (5) SIR LUDLOW

He cuts the distance back to a sprint today, after running a solid third to Temple City Star in that Mile race last out. I think that distance may have just been a little too far, as he gave up the lead late after doing all the dirty work on the front end. He's dropping down out of the \$20k level to the \$12,500 level. He won 3 back at this distance with his Pilot for this evening, Scott Spieth.
