Only official registration slip/tracking forms are accepted. No reproductions are permitted.

3. Tournament Structures

- Minimum bet is \$500 and maximum bet is \$10,000. There are no secret wagers. The minimum and maximum applies to all phases of the Tournament.
 - I. Players will compete in a heads-up match against the dealer for each round of the Tournament. If a player is not present before the end of the tournament play period, the spot will be forfeited along with any \$10 dealer appreciation bonus fee.
 - II. Players will take their registration directly to the tournament table during the play period.
 - III. Each player will be entitled to use a "Free Ace" (refer to **Exhibit BJ-C**). This card will be larger than a normal playing card to indicate the difference and can be used at any stage of the Blackjack Tournament. If the Free Ace is not used and the player does not advance, the Free Ace is considered null and void and is not transferable to any other player. Players will request their Free Ace from Table Games Management (Floor Supervisor or higher), who will add their name and player's number in the designated place on the front of the card. A player will indicate to the dealer intention to use their Free Ace by placing it near their betting position. The Free Ace will then become their first card of the hand. Players must

have their Free Ace set in place before the dealer deals any cards. Once a Free Ace is used, it will be retrieved and stapled to the pit copy of the registration slip/tracking form. The registration slip/tracking form will be circled to indicate the Free Ace has been used and will also be noted on the electronic tracking spreadsheet utilized by Table Games, Marketing and Guest Services. Players receive one Free Ace for the entire tournament regardless of how many entries they may be eligible for. All Free Aces are securely kept in a locked pit podium drawer until removed by a member of Table Games Management.

- IV. During the player's first hand of their 1st round of play, they will draw a 3-card poker hand that will be considered their tie-breaker through all rounds (player's initial two cards and the dealer's up card). The ranking of hands mirror 3-card poker. The result of the tie-breaker hand will be recorded on their registration slip/ tracking form and electronically. Should the Free Ace be used for the player's initial tiebreaker hand, it will be counted as an Ace of Spades and denoted with a Free Ace by a member of Table Games Management.
- V. There will be a maximum of 500 games played during the Preliminary Round.
- VI. The top 250 finishers with the highest chip count of the Preliminary Round will advance to the Semi-Final Round. All other players will be eliminated.
