

Run'em Twice Poker®

GAMING GUIDE

Run'em Twice Poker™ is a unique five-card poker game that lets players engage in two poker hands in one game. It's just you against a paytable and not the dealer or other players. Run'em Twice Poker offers the optional 5-Card Bonus wager. Run'em Twice Poker also offers an optional progressive wager.

GETTING STARTED

Place equal wagers on both the "1st Ante" and "2nd Ante" bet spots. You may also place a bet on the 5-Card Bonus wager. The dealer will position five community cards face down on the layout and give each player their two-card hand face down.

DECISION TIME

After looking at your two-card hand, the decision is yours: you can bet 1x to 3x your 1st Ante wager on the "1st Run" bet spot or fold. The dealer will reveal the two cards associated with the 1st Ante. You now have an option to place a wager of 1x to 3x your 2nd Ante on the "2nd Run" bet spot or fold. The dealer will reveal the two cards associated with the 2nd Ante. Your final decision is to place a wager of 1x to 3x on the Center spot or fold. *Note: If you fold, you will forfeit any base game wagers made to that point. Your 5-Card Bonus wager remains in action and is resolved at the end of the round.*

WINNING AND LOSING

After the dealer reveals the center card, all remaining wagers are resolved. You win if your initial two cards combined with either the three cards of the "1st" line or the three cards of the "2nd" line contains a pair of Jacks or better. See paytable for odds.

Note: Pair of 6's through 10's will push.

5-CARD BONUS

5-Card Bonus payouts are based on the 5 Community Cards ONLY. See paytable for odds.

PROGRESSIVE PAYOUTS

Progressive winners are determined by combining the Player's two hole cards with the three 1st Run cards. The progressive wager qualifies you for payouts from the progressive jackpot. See paytable for odds.

Must-Hit-By Mystery Bonus

If you make a 5-Card Progressive wager, you will have a chance to win the Must-Hit-By Mystery Bonus.

The mystery bonus can be hit at any time between \$250 - \$500 and is guaranteed to hit once it reaches \$500.

The player's 5-Card Progressive wager contribution increases the Must-Hit-By Mystery bonus progressive meter's jackpot amount in excess of a random dollar value preselected by an electronic random number generator, between \$250 and \$500.

ENVY BONUS (OPTIONAL)

Top hands trigger Envy Bonus payouts. See payable for payouts. You can receive multiple Envy Bonus payouts in a round, but you CANNOT receive Envy Bonus payouts for your hand.

\$50,000 Maximum payout per player, per hand does not apply to the Progressive or 5-Card Bonus Wagers.
