Ultimate Texas Hold'em

GAMING GUIDE

Ultimate Texas Hold'em features head-to-head play against the dealer and an optional bonus bet if the player's final five-card hand contains a Three of a Kind or better.

To play, players make equal bets in the Ante and Blind circles and may also make the Trips bonus bet which pays if your hand is Three of a Kind or better. Once players receive their two hole cards, they can either check or bet three or four times their Ante in the Play circle. The dealer then reveals the three card flop. If players haven't already made a Play bet, they can check or bet two times their Ante spot. The dealer then reveals the turn and the river cards. If players have not already made the Play bet, they may bet the same amount as their Ante wager or fold.

Next, the dealer reveals his two hole cards and announces his hand. If the dealer's hand doesn't qualify with a pair or better, he refunds each player's Ante bet. Following that, the dealer resolves all other bets.

IF THE DEALER'S HAND QUALIFIES, THEN:

- If the player's hand beats the dealer's, the Play and Ante bets win even money.
- If the player's hand loses to the dealer, the Play, Ante and Blind bets lose.
- When the hands tie, the Play, Ante and Blind bets push.
- The Blind bet wins when the player wins with a straight or higher.
- If the player wins with less than a straight, the Blind pushes.
- The Trips bet wins if the player has Three of a Kind or better.
